This half-day course is designed to provide recycled water users in the state of California with the necessary information required to become confident in the operational practices of recycled water. The \$60 registration fee includes learning materials and a supervisor identification card. Course objectives include;

- Implement the roles and responsibilities of a Site Supervisor at a recycled use site.
- Identify potential and direct cross-connections and appropriate preventative measures.
- Practice and apply appropriate techniques for the safe and efficient use of recycled water.

Bi-lingual staff will be on site to address questions related to Roles and Responsibilities relevant to participants. Testing materials are available in Spanish as well.
