Water Purification
Demonstration Project

The City of San Diego's water resource strategy includes planning, conservation, recycled water, groundwater, water reuse, and watershed and resource protection to help meet future water needs.

THE CITY OF SAN DIEGO

The City of San Diego | Public Utilities Department

E-Update #3 May 2011

Coming Attraction

The City of San Diego opens the doors this summer to its Advanced Water Purification Facility (AWP Facility). Located at the North City Water Reclamation Plant, this facility is part of the City's Water Purification Demonstration Project, which is examining the use of water purification technology on recycled water.

The AWP Facility will operate for one year and will produce approximately 1 million gallons of purified water every day. Purified water will not be added to the drinking water supply during this testing period. Members of the public are invited to tour the AWP Facility and see how this technology can transform wastewater into one of the purest sources of water in San Diego.

Keep an eye out for an email in June inviting you to sign up for a tour!

Recent Events

The Demonstration Project staff recently hosted informational booths at the San Diego Science Festival Expo Day, Lao New Year Festival, Qualcomm Earth Day Fair, EarthFair, City of San Diego Take Your Son or Daughter to Work Day, Sally Ride Science Festival and RiverFest. Thank you to everyone who visited our booths. We hope to see you at future community events!
