Presenter: Steve Oechel
- B. Informational Item 2: Traffic calming efforts at Upas and 30th Street and Ray Street. Provide the City with recommendation on how to improve traffic safety through intersection.

Hello Steven,

This is the response that I just received from the Transportation Department.

“TED reached out and shared that flashing crosswalk lights cannot be installed at stop-controlled intersections. They are reserved for use at uncontrolled crosswalks which is location is not due to the stop signs. Please disregard my last email and this will be the response from Transportation regarding their request. Thank you.”

Although this response is less than ideal, we understand your concerns about this intersection and would love to see additional safety measures put in place. If there are other traffic calming measures that the board feels should be implemented at this intersection, please let us know and we can adapt the request as necessary. Thank you for your understanding.

*Best,
Logan*
