Subject: sabbotage of traffic study...again

Dear Mr. Mayor,

Again, a traffic study around the Charger's stadium was tampered with. The last time, when you announced a traffic study of the area, I notified you and local news sources of a Charger fan continuously pulling back the car counter on my street, Ranch Mission Road, so as not to reflect the true car traffic flow.

Well, once again, from last week (Sat) to today (Tues., 9/15) I see car counters all over the local streets, especially on Friars Rd, but, just before the Charger game on Sunday, I noticed--and took pictures of (cf. below attachments)--the car counting strips being completely removed.

Sincerely,

Frank T. DeAngelis
6006 Rancho Mission Rd.
619-284-7132

Frank T. DeAngelis
