TREVOR TICE DEATH INVESTIGATION UPDATE

On Monday, December 12, 2016, at approximately 12:15 p.m., San Diego Police Communications Center received a call to check the welfare of the resident at 952 Cornish Drive.

When San Diego Police Department officers arrived on scene, they found a deceased adult White male inside the residence. The victim was later identified as 48 year old Trevor Tice. Due to a large amount of blood found through-out the house and possible blunt force injuries to Tice's body, San Diego Police Homicide Detectives were called to the scene.

Homicide Detectives processed the scene and interviewed numerous witnesses in the course of their investigation. During the course of the investigation, there was no indication of foul play.

The San Diego County Medical Examiner's Office conducted a concurrent investigation and notified the San Diego Police Homicide Unit that the manner of Tice's death was accidental.

The San Diego Police Homicide Unit has completed its investigation into Tice's death and concur with the findings of the San Diego County Medical Examiner's Office.
