Maybe use the extra width of Governor Dr. to build a center parkway bike pedestrian lane like they do in Paris! Utilize that space to ease the flow for bikes.

So. U.C. - medians really needed on Governor Dr + Regents to 52 section.

City needs to be more Flexible with medians

Create safe crossings rail crossings
for bike and pedestrians; better
access to Rose Canyon;
do areal ~~survey~~ survey - don't use Google
maps

Increase intensity by removing artificial limits on uses, such as existing VMTs / UCP Subarea density / intensity.

The City of

SAN DIEGO

DO NOT use Google Maps to figure out what exists AS it is wrong very often

Use the north & south connection of Regents Road abutting Rose Canyon AS Park overlooks w/ trail connections Along Town CTR Drive - increase commercial density w/ underground parking Preserve Roselle Canyon as dedicated open space.

At grade safe & legal rail track crossing in Rose Canyon open space for people

Think about a pedestrian/walking bridge over Rose Canyon - With a single lane for emergency responders only.
A community compromise that deserves discussion

1. Upgrade UC Community Library
2. Convert Genesee & Governor intersection to a traffic circle.
3. Add dedicated/protected bicycle lanes to Governor and Genesee.
4. Is there a cap on future development? Even theoretical?

Keep our air space quiet & safe. Do not allow military flights to the west of SDSU - this agrees with existing military flight routes & corridors.

Do NOT expand existing Accident Potential Zones. Install aircraft noise monitors. Enforce no military flights over our schools & UTC mall.

I hope the committee requests the inclusion of a pedestrian/bike and emergency vehicle lane for firetrucks, police & ambulances to reduce auto emissions & connect North & South UC by connecting Regents Rd.

- If Genesee to be used for dedicated bike Lane, how do we resolve this when Genesee is not big enough for all the cars coming through
- Use an aerial survey to create ACCURATE maps for accurate planning
- Provide child care & refreshments for UCPU meetings
- Consider shuttle / bus for seniors to the bus and trolley stops
- Come to a written agreement with airbase re: safe flight patterns
