

Good Evening,

The instructions include the guidance to try to keep community planning groups intact and this is greatly appreciated.

Some clarification regarding a District 7 instruction is needed. The instruction states:

Consider a map where Scripps Ranch is transferred from District 5 to District 7 in exchange for Mission Valley or Serra Mesa neighborhoods being transferred from District 7 to District 6...

Is it being suggested that Birdland be separated from the rest of Serra Mesa in order for there to be contiguity for Mission Valley and the rest of District 6? The Serra Mesa Community Council explained in their September letter that this would not be a good time to split off the Birdland area considering there are two major hospital construction/remodeling projects planned and the hospitals have been working with the community groups to minimize potential impacts.

Now if Linda Vista is going to be part of District 6, the incorporation of Mission Valley would be contiguous.

Thank you!

Cindy Moore
Member, Serra Mesa Community Council Board
