

Dear Redistricting Commission, Re City Council Districts
Districts need to be drawn horizontally, not vertically.
The South Bay needs to be one district.
The center city (south of 8) needs to be one district.
The upper city North Central needs to be one district.
The upper city (La Jolla, Univ City) needs to be one district.
And the suburban city (Ranchos et al) needs to be one district.
Drawing the districts vertically is gerrymandering.
Putting independents on the board without progressives is gerrymandering.
Please stop diluting the Democratic majority in this city and county, thank you.
