

My name is Derryl Williams and I live in the Webster Community Council neighborhood in District 4

I support making changes to the preliminary maps so that it mirrors **the** “Revised” unity map for District 3, 4, 8, and 9 because it best empowers Black & Latinx communities, it satisfies our population issue, AND our coalition map is just fine the way it is.

- **Rolando Park and Redwood Village should remain in D4.**
  - Community Treasures such as our historically **first African American Newspaper** is headquartered in Rolando Park, (The Voice and Viewpoint),
  - Secondly, College Grove Shopping Center is D4’s only large shopping Center in the District, and is heavily used by our residents.
  - Thirdly, there are residents in these neighborhoods that support remaining in D4.
  - University Ave, in past redistricting efforts, was a boundary to maintain, and identifying neighborhoods and this session we have suddenly decided to ignore it as a “Boundary”? with an argument of “joining “ communities? Seems like our “boundaries” are contingent upon the whims of some communities?
  - Removing Rolando Park will also have a secondary negative impact by reducing significantly the voting power of Latinos in D-9, creating a southern boundary of D9 at Federal?.
- **Ridgeview and Webster should be in D4:** The Ridgeview-Webster neighborhood has always historically been in D4 and was cut in half 10 years ago. According to residents there, north of Home Ave is where Mid-City starts, and south of Home Ave is where D4 should start.
- Please **make these changes to the preliminary map so that it reflects the revised** unity map, which empowers Black and Latinx communities in the city of San Diego.
