

Hello,

I'm writing on behalf of my beloved community of Clairemont. The proposal of redistricting the community into 4 different separate districts is not what is in the best interest of our town. Clairemont is in the middle of a profound change. The Clairemont redevelopment plan to improve our parks, libraries, and public transport will yield so many beneficial outcomes. My concern in the proposed redistricting plan is that our unified town will now need to have 4 different people depending on what side of the street you happen to live on. This will ultimately slow down the necessary changes and improvements within our community. In addition, the challenges and strengths within Clairemont are drastically different than PB, La Jolla, OB, and Mira Mesa in which we will be grouped together in the future.

Please reconsider this disastrous redistricting, as it is not what is best for our community.

Respectfully,

Bethany
