

My name is Sandy Spackman and I serve on the APAC Board of Directors and the APAC Redistricting Sub-Committee.

Thank you for adding Convoy and partial Kearney Mesa back into D6, gaining Torrey Highlands, Park Village, and part of University City and Clairemont to the east to rebalance the population makes sense. Requesting to keep the D6 API population as close to 40% or higher. This is achievable through APAC Maps 1 and 3. Please do your best to not split the communities of University City and Clairemont as much as possible and UCSD in D1.

Respectfully,

Sandy Spackman  
APAC Secretary
