

San Diego Redistricting commission,

At recent redistricting commission hearings, students of UC San Diego have vocalized our urgency to be removed from District 1 and be united with District 6, as shown by the maps created by Neighborhood Voices San Diego. Associated Students at UC San Diego is a legislative body comprised of students advocating on behalf of the undergraduate student body and its interests at UCSD. Attached in this email is a resolution passed by ASUCSD acting on behalf of the **30,000+ undergraduate students at UCSD** that fully supports the removal of the entirety of the UC San Diego campus and nearby student population centers in North University City and Sorrento Valley, from City Council District One, as well as uniting these student residents with the student population in City Council District Six. With this resolution showcasing the Undergraduate student bodies stance on redistricting, we urge you to **STRONGLY consider** students as a community of interest and move forward with the proposed maps presented.

**Leana Cortez**
