---

We respectfully request that the hearing for the appointment to the San Diego Unified Port District Board of Commissioners be removed from the November 29, 2010 agenda, and be re-docketed after new Councilmembers are sworn in on December 6, 2010.

There is no reason why the appointment must be docketed any earlier than that date. There will not be a vacancy on the Board of Commissioners until January 2, 2011. It is reasonable, fair and prudent that the Councilmembers in office at the time the seat becomes open should have the ability to fill the vacancy.

We should allow our incoming colleagues the courtesy to assist in selecting the individual they will be working with at the Port for the next four years.
