

We have lived in University City since 1994 and have built relationships with our neighbors and friends in west UC. We do NOT want the proposed redistricting to split up our community at Genesee Ave nor anywhere. This change will divide us from an arrangement that has worked so well for so many years. The commissioners don't know our community and our relationships that have been built over the years, including our Neighborhood Watch program.

We are also concerned that this will adversely affect our businesses, our property taxes, our police department and its response time, and our new fire/rescue team on Shoreline Drive and its response time.

Please vote against this updated Redistricting Commission map

Sincerely,

Bruce & Elizabeth Murray
