#### Initial Underground Utility Location Work to Begin the Week of November 14 on Clairemont Drive

Beginning the week of November 14, crews will be working on Clairemont Drive to locate utility lines in the street. Traffic control will be in place to provide crews with a safe space to work. One lane in each direction will be open to traffic, and all businesses and residents will have access to their driveways if they're located within the work zone. Please follow the posted signage in the area for your safety.

Initial work will start at the intersection of Clairemont Drive and Erie Street, and then continue north on Clairemont Drive through Bay Park and Clairemont to the intersection of Clairemont Mesa Boulevard and Genesee Avenue.

This work will take approximately 4-5 weeks, and will be done during the day, from 7:30 a.m. to 4:30 p.m. Typical noise associated with construction is to be expected.

Construction notices are posted on [morena.purewatersd.org](http://morena.purewatersd.org). Please contact [purewatersd@sandiego.gov](mailto:purewatersd@sandiego.gov) or **833-MOR-PWSD (833-667-7973)** with questions about the City's Pure Water Program and/or the Morena Conveyance South & Middle and Conveyance Bike Lanes project, and a team member will get back to you within one business day.

Visit the project website for more information

Safety of the construction crews and community is our top priority.  
Please slow down near work sites and follow pedestrian instructions.

## About Pure Water San Diego

Pure Water San Diego is the City of San Diego's phased, multi-year program that will provide nearly half of San Diego's water supply locally by 2035. Pure Water San Diego will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The Program offers a cost-effective investment for San Diego's water needs and will provide a reliable, sustainable water supply.

Phase 1 includes several projects that will clean recycled water to produce 30 million gallons per day (mgd) of high-quality purified water, reducing the City of San Diego's dependence on imported water.
