

Mission Beach should be included into District 1, along with Pacific Beach and La Jolla.

Mission Beach has much more in common with District 1 than it does with the new District 2.

Mission Beach used to be a coastal community with many more residents, than it has today, as a result of Stvr's being given more priority than local residents.

With the idea of a 30% carveout for Stvr's in Mission Beach, there is no way we will ever have the voice we once did, especially if we are left in District 2.

The only logical thing to do, is to put Mission Beach into District 1, along with Pacific Beach and La Jolla, since Mission Beach has much more in common with those two coastal towns, including a shared zip code with Pacific Beach, than Mission Beach has with the new planned makeup of District 2.

Respectfully,

Will Schussel
