

To whom it may concern,

As someone who lives in University City I am very concerned to hear of redistricting and splitting of our community! I vehemently oppose this change and urge you to reject the proposal.

East UC is in NO way affiliated with Sorrento Valley. They don't shop there, their kids don't go to school there, nobody uses the library over there, and the Sorrento Valley Fire Department does not service the area. There will be NO fair representation being a small sliver of UC shoved into the Sorrento Valley district. The needs and concerns of people in Sorrento valley are much different than the day to day needs of UC residents. Our community will be split by this divide in a time when communities need to be coming together.

I urge you to vote NO on redistricting University City!
