

To whom it may concern,

Our family has lived in University City for over 20 years. We have established wonderful relationships with both our neighbors and businesses in West University City. We Do Not want the proposed redistricting to split up our community at Genesee Ave nor anywhere else in University City.

Your proposed change will divide our community from an arrangement that has worked great for a very long time. The commissioners are not aware of our community and the relationships that have been built over the many years. Furthermore, we have a great Neighborhood Watch program and your proposed changes could have a very negative affect on this program. Your proposed redistricting plan is a very bad idea, especially in the University City area.

We, along with many other University City residents are quite worried how these possible changes will have a negative impact to our neighborhood businesses, our property taxes, our police department and its response time along with our new fire department on Shoreline Drive response times.

Please vote against this updated Redistricting Commission map.

Best Regards,

Bill & Roberta Moss
