

Dear Committee Members,

This map that is proposed is more than a slap in the face to our community, it is a total disrespect of a dynamic community that has been a force in San Diego for years and years. This is one of the most active communities with regards to support of its treasures, such as parks, schools, library, canyons, sciences, commercial and business entities. My name is on the UC Community Plan, developed in 1987, and now you are telling me that I won't even live in the community that I helped to develop. This is unacceptable. We have no contact with the Sorrento Valley, Mira Mesa communities other than being contiguous to these areas. We are separated by a major freeway and topographical canyons that make it unrealistic to be now represented by someone outside of the total voice of our area. We shop, eat, play and support University City. Our motto of UC is more than just a Neighborhood is to be taken seriously. Splitting communities never works. I implore your committee to reconsider ripping us apart for some political dynamic.

Bob Vilven
