

Good morning redistricting staff, thanks for all you do.

This morning I saw an idea for splitting University City into north and south regions at Rose Canyon. It would combine southern University City with northern Clairemont. I like that idea. Southern University City is primarily single-family homes and low rise condos and apartments. That region has a lot in common with northern Clairemont.

I hope you will consider this proposal (split at Rose Canyon) instead of splitting University City into east/west regions at Genesee Ave. I really don't like that idea. Genesee is the only local north / south route through our community and to split that road into two different council district doesn't make sense to me.

Thanks so much.

- Take care, Diane Ahern
