

Dear Redistricting Commission,

Please do not split University City in half between the east and the west. We are one community and it is vitally important that we remain in one district with one representative. To split this community in half down Genesee would be hugely divisive and dilute what limited ability we currently have to participate in the political process. We have a small strong community that needs to be cohesive.

If redistricting must happen, a division between the north and south would make much more sense. Perhaps at Nobel. East and West UC, south of Nobel have similar demographics and community needs. The new trolley and the expansion of housing in north UC changes the needs of that sub-area.

Thank you,

Julie Dennis

East UC, south of Pavlov resident.
