

My name is Pam Williams and I am a resident of Rolando Park. I support the Preliminary Map which reunites both Rolando Park and Redwood Village with the other College area communities in District 9. Historically, until 10 years ago, we were unified with the other 50's era communities and have the same infrastructure needs.

During the last 2011 redistricting moved us to district 4 due to lack of public comments and for population balance. Our communities have had poor representation since that move to District 4. We want to be a majority in a district that is working on our specific issues. Please keep Rolando Park and Redwood Village in District 9.

Thank you,

Warmest regards,

Pam Williams
