

We are writing to express our dissatisfaction with the proposal that cuts the historically united community of Pacific Beach into two districts. I can see no justification for this severing of a contiguous community with historical roots and similar interests. It makes no sense! There is no rationale that could justify doing this, except perhaps the interest of a few who would stand to gain by this self-serving and inappropriate proposed splitting of this community. Do not support this obvious attempt at Gerrymandering for selfish interests.

James and Deborah Marshall
