

There is a reason the redistricting process seeks (or should seek) to keep communities together in the same district. Communities tend to have common interests that would be more strongly supported by their city council representative.

Torrey Hills and Carmel Valley (both in district 1) share school districts, local shopping, parks, and libraries, and so we have shared interests that are different from those of the communities in district 6. So please keep all of Torrey Hills with Carmel Valley in district 1.
