Commissioners:

I am confounded by the "cleaned up" map submitted by Haystaq. After listening again to the Commission's motion at the end of last week's meeting, I did not hear you give instructions to Haystaq to move substantial population numbers from Torrey Hills out of District 1 and into District 6.

Torrey Hills should be whole and in District 1. There has been an enormous outpouring of support for keeping Torrey Hills with our sister community Carmel Valley. Torrey Hills is a small community, a fraction of the size of Clairemont, yet the number of submissions from Torrey Hills residents requesting they stay in District 1 matches or exceeds those from Clairemont.

The Clairemont United map takes the neighborhood Torrey Hills - plus areas with no population such as Los Penasquitos Canyon and the SR56 wildlife corridor - out of District 1 and transfers them to District 6. There is no justification for this and I ask that you reverse it.

Please listen to the many voices of Torrey Hills and put our community and surrounding areas back to the boundary from the 2011 redistricting commission.

Sincerely,

Kathryn Burton
