

In the latest plan for redistricting it seems that University City is to be divided on Genesee Avenue into two different districts. That makes no sense at all. I have lived in both the east and west end of UC, and they are the SAME community with the same concerns and interests. It would make much more sense to leave south UC in District 1 and place the area north of the railroad tracks into District 6 (I believe that is the right district number). You will be doing a great disservice to the residents of UC if you split our area.
