

We are long-time residents of Rolando Park and we support the Preliminary Redistricting Plan proposal and map showing Rolando Park moving to a D-9 classification. This classification re-aligns us with other College area neighborhoods we have always been a part of. I-94 is a clear geographic dividing line between us and the D-4 classified neighborhoods to the South.

We look forward to the reclassification to D-9 status in the near future.

Thank you,

Terry Singleton
