

I strongly urge you to keep the Torrey Pines area west of Interstate Five in the same district as the rest of the coastal areas of north San Diego. Issues such as sea level rise and rail transportation along the coast are of prime interest.

Many people, students, faculty and staff of the University of California live in our area as we are just north of the campus. We are also strongly linked to the Sorrento Valley area for employment and transportation.

The issues confronting our community are much more linked to coastal areas than to Rancho Bernardo and Rancho Penasquitos!

I strongly recommend keeping us in a coastal district!

Thank you,

Dorothy Knox
