

Letter to the Redistricting Commission of the City of San Diego

Dear Commission,

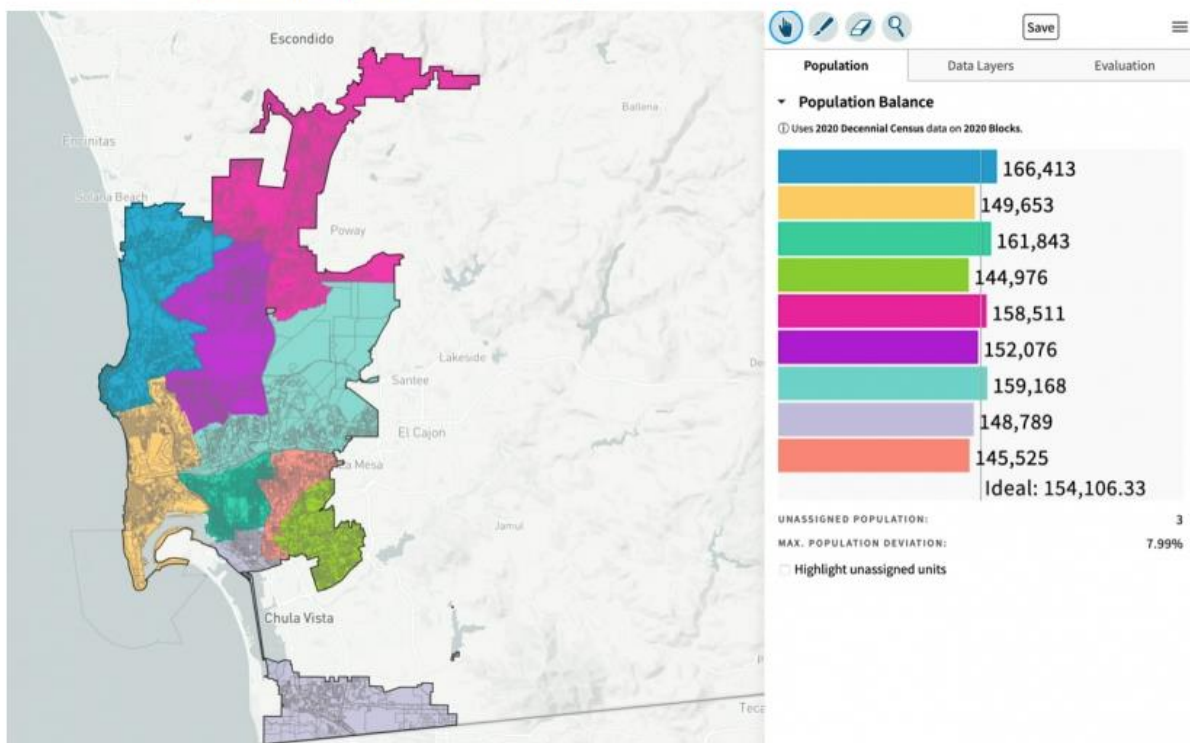

This letter is written to express the clear and concise position of the Torrey Pines Community Planning Board regarding the City of San Diego Council Redistricting effort currently underway.

The Torrey Pines Community Planning Board wishes to express its strong support for the Redistricting Map approved by the Commission in an 8-1 vote on October 29, 2021. That map is provided here:

The following map was approved by the Redistricting Commission (8-1) on October 29, 2021: <https://portal.sandiego-mapping.org/submission/p6246>.

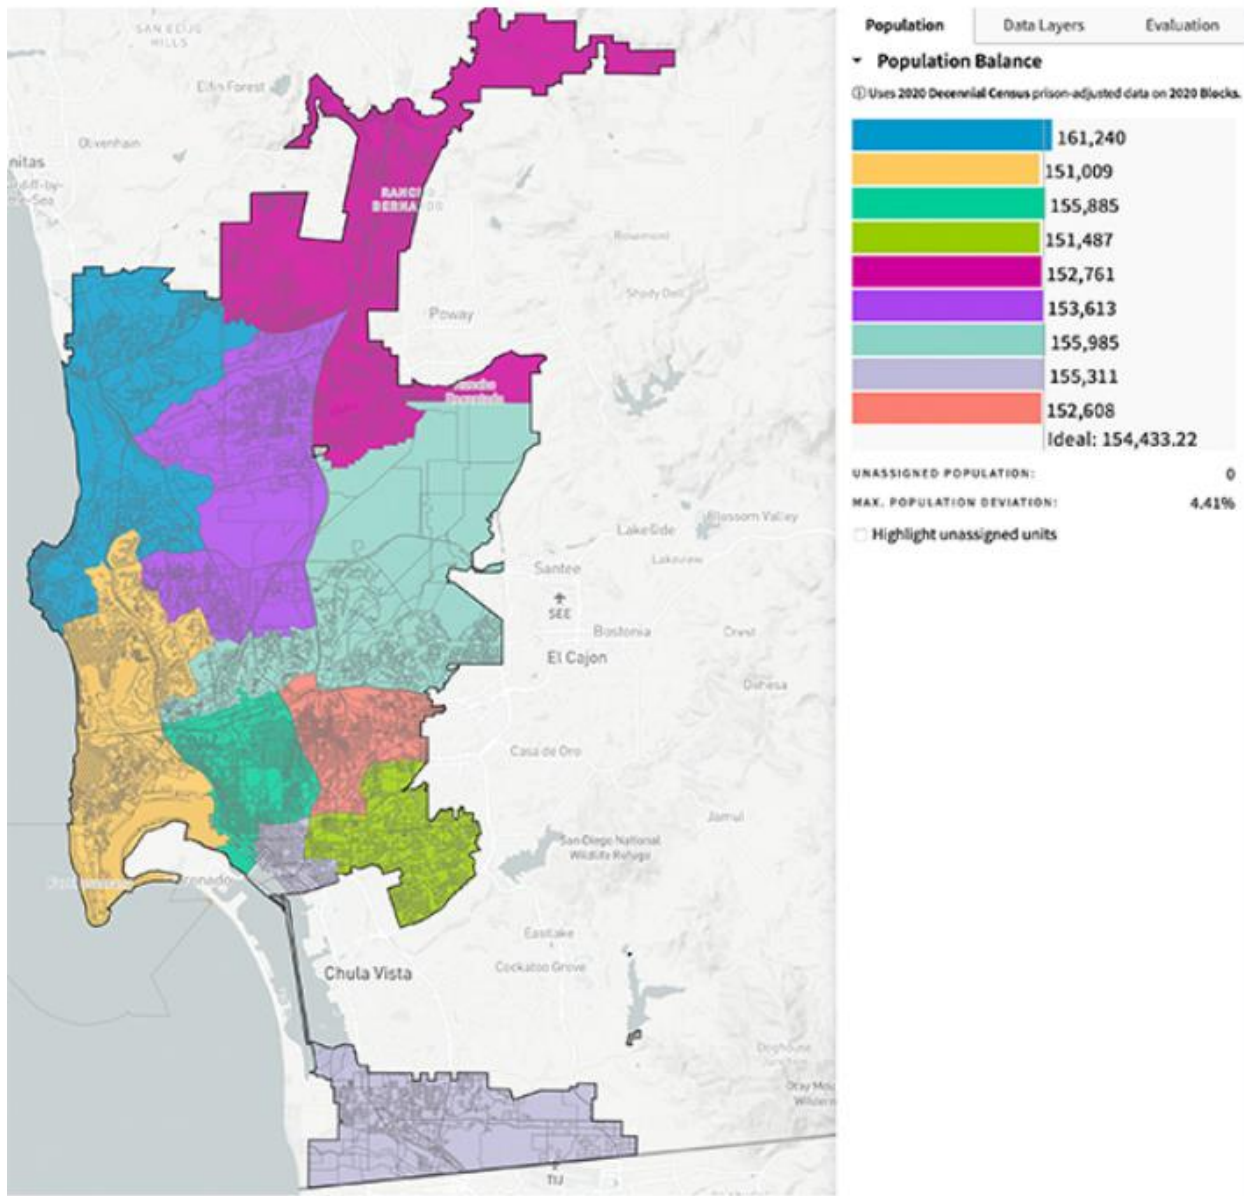

The Commission will vote on a final preliminary map and the findings to submit to the City Clerk on November 4, 2021.

A link to our new [redistricting mapping tool](#) is available!

The Torrey Pines Community Planning Board has previously provided written support for the D1 United proposed Redistricting Map as it is generally consistent with the Commission approved map above. The D1 United map is provided here:

District 1 Revised Alternate Map submitted October 27, 2021

The Torrey Pines Community Planning Board jurisdiction includes threatened coastal areas that are vital to our communities and represent the greatest challenges we face in San Diego: rising oceans levels, bluff erosion, and likely significant climate challenges in the near future. These issues must be handled with great attention, focus and consistency up and down the coastal strip of San Diego. Consistent and focused representation is critical to our ability to deal with these challenges.

The Torrey Pines Community Planning Board believes in the cohesion and consistency of representation for Carmel Valley and the Torrey Pines Community. These communities are tied together in their school systems, retail and transportation services, community parks, etc. Consistent representation together

with cooperative community planning boards provide the most efficient and effective means of meeting the challenges of these areas.

The Torrey Pines Community Planning Board believes the supported maps described above adequately meets our concerns regarding coastal challenges and cohesion with the Carmel Valley community.

Thank you for your attention.
