

# MSCP WORKSHOP

View of Otay Lakes Reservoir and portions of the Otay Ranch Preserve from Mountain Hawk Park

The Multiple Species Conservation Program (MSCP) was developed to preserve a network of habitat and open space, protecting bio-diversity and enhancing the region's quality of life.

This workshop will focus on local, State and Federal partners' MSCP accomplishments including habitat acquisitions, management and monitoring. The workshop provides an opportunity for the public and interested parties to learn more about unique habitats in the San Diego region, the role of the MSCP in preserving open space and regional conservation and management efforts.

**Thursday**  
**July 21, 2016**

**11 a.m. - 1 p.m.**  
 Food and refreshments provided

**Mountain Hawk Park**
