

Friend of Del Mar Mesa is a 20 year old local non profit formed with the purpose of preserving and protecting Del Mar Mesa Open Spaces and enhancing community.

They support map 87744 with modification, so all of the east side of DMM Preserve is included with DMM residential areas stay together with our communities of interest in D1.

Preserve has zero population, so there is no reason for any of it to be in D5 or D6 as shown in 8774 and 87525.

Property owners in DMM ceded up to 75% of their property to create the Preserve. The DMMCPB and D1 Council have been good stewards of the Preserve which was created as part of the Community Plan in accordance with the city's Multiple Species Habitat Plan.

Our small communities voice will be lost if it is represented by two Council offices. D1 and D6 or D5 depending on how we are split.

Splitting us wastes Council resources and threatens the Preserve with development in MSCP lands due to lack of oversight.

We are oppose map 87525, that splits the DMM Planning Area into two Council Districts and puts a very large portion of DMM Preserve in District 6 keeping the DMM residential community in D1.

DMM together in D1 does not impact population deviation. It is logical and helps governance.
