

Hello Commissioners,

Map 91107, on the redistricting website today, Dec 14, 2021 does not show Del Mar Mesa Community intact in District 1. Mr. Brian W. from the redistricting team, mentioned in the last public meeting that, the North East Corner of Del Mar Mesa Preserve with zero population will be included in District 1 as it does not impact population deviation and is part of the Community Planning Group Area of Del Mar Mesa and part of Current City Council Districts 2011. Del Mar Mesa Preserve needs to be kept together with Del Mar Mesa Residential area in D1 as the Preserve area open space was created when residents ceded their lands to form the one whole Del Mar Mesa Preserve. It will be a strain on Del Mar Mesa Community Planning Board to work with two city council districts and a waste of resources, hindering community preservation and oversight, if the DMM community is split up in two council Districts 1 & 5.

I'm hoping haystaq is still working on the issue and exclusion of DMM Preserve in D1, on the 91107 map is not oversight *but a work in progress*, which will be fixed before tomorrow's meeting to reflect the original, Subarea V Del Mar Mesa Plan as a whole, together and intact in District 1, in the final map presented in Dec 15, 2021 meeting.

Thank you for all your hard work and time.

Wendy Poyhonen

Board Member, Del Mar Mesa Community Planning Board
