

Good Morning,

Thank you for spending the time working on this very difficult task that is the redistricting.
We truly appreciate your hard work and dedication.

To positively contribute to your efforts, I would like to mention that I have detected an historical overlook in the new preliminary map.

University City can't be split from UCSD. The University City name is deeply rooted in the origins of UCSD and its founders.

University City was subdivided in June 1960 and it was a master planned community of 2500 acres acquired in 1959.

University City was to serve as a residential haven for the University of California, San Diego employees and students, where both college presidents and janitors would be able to live in the same community.

Separating the two is a historical mistake and a total disrespect to the UCSD founders wishes. This should not happen.

Thank you for your attention.

Respectfully

Marcio de Andrade, PhD
