

I would like to voice my extreme concern that my home in St. Augustine development, was carved out in an obvious non contagious way out of Torrey Hills. This seems deliberate, while keeping next door Torrey Ridge apartments in Carmel valley. We pay property taxes while the renters don't. The way my community streets were carved out does not make sense. Just look at the map.

I was one of the FIRST residents to buy my home in Torrey Hills in 2000, when there were NO other Torrey hills homes in the area.

*We just lost our 20-year old son to brain cancer 6 months ago. He was born in THIS home in 2000, and passed away in June 2021, also in THIS home while under home hospice. His birth AND death certificate list our street, San Diego, and zip code! We need to to keep it this way.*

I urge the commission to reconsider the error made by the Commission's consultant to EXCLUDE my St Augustine community, and keep it with Carmel Valley, Distrust 1. Map 89040 speak for itself. This has deep consequences on our home values and schools, one of the main reason I bought my home.

Thank you,

Tarek Hallal
