

Dear San Diego Redistricting Commission,

We are concerned Torrey Hills residents and we are glad to see that our Torrey Hills community returned back to District 1 at the 12/1/2021 hearing.

But the errors on map #89040 still left 606 Torrey Hills residents including my family behind in District 6, with the proposed district boundary being small community streets Terraza Mar Marvelosa, Torrey Circle and Vereda Luz Del Sol.

We are afraid of being wrongly represented, as our very only roads connecting outside and all nearby community parks are located in district 1. Our tax is also used for maintenance of these facilities in Dist.1. We don't find it reasonable being redistricted to dist.6, a district across a natural barrier of Los Penasquitos Canyon Reserve from our home, and barely any connections with. This doesn't seem to follow the "contiguous" rule of redistricting.

Could you please correct the potential error and return the WHOLE Torrey Hills community back to District 1, including the 606 residents, the Torrey Hills Dog Park, and other residential areas to the north of the Los Penasquitos canyon.

Thanks,

-Patrick Wu
