

Hello

I would like to add to below request for urgent reconsideration of carving out my only Torrey hills development and adding it to Mira Mesa

The new proposed map 89040 clearly shows how my development is the only one carved out of the natural flow of Torrey Hills community. The boundaries behind my development and other developments that were kept in district 1 is a large canyon, Mike away from Miramesa or any other structures.

I don't understand the rationale for this un-natural carving and re-districting of my development/home out of the rest of Torrey hills.

Thank you
Tarek Hallal
