

Hi Redistricting Commissioner,

First of all, thank you for returning the Torrey Hills community back to Dist.1 on the 12/1/2021 hearing!

While the majority of Torrey Hills was returned, the errors on map #89040 still left 606 Torrey Hills residents behind in District 6. They are our neighbor and friends just across the small community street Torrey Cir and Vereda Luz Del Sol. Same as us, they are part of the Torrey Hills community, paid the same 20 years high tax and Mello Roos building the Del Mar school district, parks, and community structures, developed family and friends from the same community, and spent most of the past two decades in the same area.

They are part of US.

So please correct the error and return the WHOLE Torrey Hills community back to District 1, including the 606 residents, the Torrey Hills Dog Park, and other residential areas along the canyon.

Since the whole Torrey Hills is to be restored back to original dist.1, there's no reason the original boundary between dist.1 and dist.6 is not restored. Please make the correction too and restore the original natural boundary in the Los Penasquitos Canyon.

Thanks again for your consideration!

Best regards,  
Quinn Liang
