

I am a homeowner on Terraza Mar Marvelosa in Torrey Hills and am writing once more to express my dismay at the decision to carve out a few hundred Torrey Hills residents from the rest of our community in the redistricting plan. It makes no sense whatsoever.

It is politically disenfranchising to dissect houses from a neighborhood and place them in a district where they are miles away from anyone else with whom they supposedly share common political interests.

We don't/can't send our kids to schools in district 6. Our roads and transportation are in district 1.

Please keep Torrey Hills united and part of District 1
