

Dear Commissioners:

I want to thank you for your consideration of changes supporting the unification of the northern part of current District One into the District One of the future.

Your approval of adding the Southern Part of Torrey Pines and the bulk of Torrey Hills to District One will assure the continuation of the long standing working relationship between Carmel Valley and these areas.

Also please approve the proposed addition of the remainder of of Los Penasquitos Canyon preserve (including the remainder of Torrey Hills) as well as the eastern portion of Del Mar Mesa Preserve to District one. I note that the HaystaqDNA report mistakenly calls this latter area the "East End of Torrey Pines Preserve."

The consolidation of these areas in District One will permit this entire coastal canyon and watershed area to be in just one district, not scattered over three districts 1,5, and 6.

Thank you for your consideration and for your extensive work listening to the communities of San Diego.

Helen Boyden
