COMMITTEE TAKES HISTORIC ACTION ON INFRASTRUCTURE

Tomorrow night, the Infrastructure Committee will hold a special evening meeting to facilitate public input and participation. Topics will include a citywide sidewalk assessment and the City's first-ever asset management policy. See below for details.

NEIGHBORHOOD INPUT POLICY TRAININGS AVAILABLE

In the coming weeks, the City's Independent Budget Analyst will be holding a series of training sessions for community planning group members and members of the general public who want to learn more about and participate in the Neighborhood Input Process authored by me and passed by the Council this year. The policy makes permanent the role of community feedback in the City's process for investing limited infrastructure resources.

The District Five training will be held on **Tuesday, August 27th at 6:30PM** at the Scripps Miramar Ranch Library, 10301 Scripps Lake Drive. For those of you who work or go to school in other areas of the City, or want to share with friends, see below for a list of all upcoming trainings.

NEW WEBSITE PUTS INPUT OPPORTUNITIES AT YOUR FINGERTIPS

Infrastructure.opensandiego.org, designed by our local Code for America brigade as a way for residents to voice their infrastructure priorities, is just one example of empowering the public through Open Data practices, which I strongly support. Check it out and make your voice heard.

Best,

Hon. Mark Kersey
