The City Council authorized the initiation of a Serra Mesa Community Plan amendment in an October 2008 resolution to include a street connection between Phyllis Place and Mission Valley and analyze whether police and fire response times would be improved with the road connection, whether the road connection could serve as an emergency evacuation route, whether it is feasible to make the road available for emergency access only, and whether the pedestrian and bicycle access would be improved by the street connection. Also, the resolution states that “the initiation of a community plan amendment in no way confers adoption of a plan amendment and City Council is in no way committed to adopt or deny the amendment...” The final decision maker is the City Council.
