- Tripp Bennett – Questions about West elevation and room relationships to Linda Strauss' property

COMMITTEE DELIBERATION (11/14/2017)

- Historic bridge and weight will limit access to site. Coordinate with contractor and city.

- A “refreshing” example of what to build on hillsides: a compact house, no pools or tennis courts that require large flat areas.

DELIVERABLES FOR NEXT PRESENTATION

- Colored elevation
- Photo survey (include proposed house outline)
- Information about fencing from downhill side (along with photos)
- Cross section or street elevation with proposed and neighboring house heights
- Colors/materials board (include glass tinting)
- Landscape plan
- Consider more or larger windows for light & ventilation in ground floor bedrooms

5. FINAL REVIEW 12/19/17

Project Name:	5785 La Jolla Blvd Mixed Use	Permits:	CDP, PDP
Project No.:	552695	DPM:	Morris Dye
Zone:	PDO Zone 4	Applicant:	Manuel Oncina

(Process 4) Planned Development Permit and Coastal Development Permit for the demolition of an existing single story mixed use building for the development of a new 2-story 14,150,943sq ft mixed use live/work building at 5785 La Jolla Blvd. The 0.173 acre site is in zone 4 of the La Jolla Planned District, Coastal (Non-appealable) overlay zone within the La Jolla Community Plan Area.

APPLICANT PRESENTATION: 9/12/2017 (Patrick Banning)

- Site map (PD zone 4)
- Project Description is incorrect. Total project is 9,439 sf including covered parking
- 4 retail units, 4 residential units, covered parking
- Planter removed to create ADA access to retail
- 1.3 FAR allowed, 1.25 proposed
- Presented color board, stucco, shiplap, wiremesh for vine growth
- Clear glazing at retail, grey tinted at residential above.

COMMITTEE QUESTIONS/DISCUSSION: : 9/12/2017

- Zero side yard requirements all PL, 16' street setback (curb to building) – proposed closer to 30' along LJ Blvd
- Stormwater – standard priority, exempt from permanent BMPs and hydromodification
- Trench drain in front of building face (alley side), area drains in garage with sand/oil filter
- Height = 19' above grade on alley side.
- Likely remove stairs from retail rear into each private residential stair well.
- No openings along South side. Wall seems large, monotonous, could use decorative modulation. (even just color)
- Have not been to Bird Rock CC
- Loading zones? Requested deviations from PDO, limited frontage on alley, 600sf invites trash, loitering, transients.
- Revise parking to angle spaces 4a/b 15 degree.
- Prominent corner ... is it soft enough?
- Project will include new curb and gutter along CDLC, and improvements along alley
- Landscaped 10'x14' open air stairwells
- Alley is 15', exceeds parking requirement by 1 space

PUBLIC COMMENT: : 9/12/2017

- Sally – How wide is sidewalk? Parking off alley is gated? Yes. Think it is out of compliance and is offensive. Should be Mediterranean.
