INTRODUCTION

SAN DIEGO DIRECTORY CO., publishers of the San Diego City and County Directory, present to subscribers and the general public, this, the 1930 edition of the San Diego City Directory, which also includes San Diego County.

Confidence in the growth of San Diego's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting San Diego to the world.

The enviable place occupied by this directory in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the San Diego Directory will fulfill its mission as a source of authentic information pertaining to the city.

Population

The estimated population of San Diego is 166,293. Due allowance is made for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory.

Six Major Departments

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE, pages 17 to 124, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of San Diego. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The city's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like San Diego, the necessity of having this kind of information immediately available is very great and, frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations of San Diego is included in pages 125 to 756 and of San Diego County in pages 1175 to 1366.

THE STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS covers pages 757 to 1048. In this section the names of the streets and avenues are arranged in alphabetical order; the residence and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 1049 to 1174. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE SAN DIEGO COUNTY DIRECTORY, including the small towns of the county, arranged in alphabetical order, covers pages 1175 to 1366.

THE NUMERICAL TELEPHONE DIRECTORY is embraced in pages 1367 to 1492.

Community Publicity

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of San Diego, for business men, everywhere, realize that the city directory represents a community as it really is.

The San Diego Directory Library

Through the courtesy of the publishers of the San Diego City Directory, a Directory Library is maintained at the Chamber of Commerce, 168 Broadway, for free reference by the general public. This library is part of the system of more than 400, installed and operated in the chief cities of the United States and Canada, under the supervision of the Association of North American Directory Publishers, of which San Diego Directory Co. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

SAN DIEGO DIRECTORY CO.

Publishers.

San Diego Statistical Review

Furnished by Arnold J. Klaus of San Diego Chamber of Commerce.

Name of City—San Diego, California.

Slogan or sub-phrase—"Air Capital of the West."

Form of Government—Limited managerial form of Government.

Value of plant estimated at $12,550,000. Fire department employs 180 men with following equipment: 19 engines, 2 hook and ladder trucks, in 20 station houses. Value of fire department with property is $736,964. Police department has 192 men with 4 stations and 26 pieces of motor equipment.

SAN DIEGO, CALIFORNIA

Prepared by the Publicity and Research Departments of San Diego Chamber of Commerce

San Diego, southwesternmost city of the United States, first white settlement on the Pacific coast, county seat of the county of the same name which formerly extended to the Colorado river and seat of California government in Spanish regime, has developed within the past decade into metropolitan aspect, historically contemplated by reason of strategic seaport location. Conservative estimates place the present population at more than 155,000 as compared to census figures near 75,000 in 1920.

The landlocked harbor, San Diego bay, was discovered in 1542 by Juan Rodriguez Cabrillo, surveyed by Sebastian Viscaino in 1602 and a settlement effected on the shores in 1769 by a military expedition from New Spain attended by Franciscan missionaries under direction of Fra. Junipero Serra, who promptly founded Mission San Diego de Alcala, first of the chain of 21 along California's "King's Highway." Under Mexican government, San Diego was constituted a pueblo in 1834. The United States flag was raised by John C. Fremont in 1846, for the first time in California, and the American City of San Diego was formulated in 1850.

Equable climate averaging 61.1 degrees and varying only 10 degrees between mean averages for winter and summer has prompted travelers to call San Diego "The Climatic Capital of the World." Certainly it is pleasant the year around, and combines with natural harbor and extensive tributary agricultural, mining and fisheries resources to indicate continued and probably rapid growth. A great deal of the remarkable growth in the past decade has been due to attraction of new populace from states of rigorous climatic conditions, an influx encouraged among people of means by the San Diego-California Club, first community advertising organization now patterned after in many sections of the country.

With large increase of population, the city's consuming power has increased in proportion, of course, influencing establishment of many merchandising houses and enabling new industries. Approximately 5000 army and navy families constitute an important unit in the population, their residence influenced by a large and comprehensive service establishment that includes headquarters of the 11th naval district, naval air station, naval training station, naval hospital, Rockwell field, army aviation establishment; Fort Rosecrans, coast defense; U. S. Marine Base, destroyer base, Chollas Heights radio station and other units of a total in which the government has invested $40,000,000. A student population likewise is considerable, and increasing with additional private schools and enlargements to meet demands. The San Diego State College has a student body of 2000, and has begun construction of a new group of buildings to accommodate much greater enrollment.

Favored by naturally beautiful site, the builders of San Diego have exercised care in planning and construction with result that the city today ranks as one of the most beautiful in the world. Spanish, or Mediterranean, styles of

architecture come to be adopted as a "Southern California" style, predominate on the sloping shores of the bay, rising above the bay against a mountain background. The view of the city from Point Loma, described in Encyclopedia Americana as one of the three finest in the world, is improving day by day under a unified resolve of citizens to build beautifully.

Transportation, lack of which seriously handicapped development of a large city at this strategic location earlier in history, is now adequate and measureably reflected in recent growth. Direct transcontinental rail connection eastward in addition to coastal line, together with paved highway system and water transportation and fast-gaining aerial service, give easy access by a complete diversity of means of travel. Closest Pacific coast city to points in the mid-west, east and south, and favored by open road the year around on southern routes across the country, San Diego has been selected as the western terminus of numerous trans-continental highways converging upon Yuma, whence all follow the same route to San Diego, paved the entire way except for a short gap that is being paved as quickly as practicable.

Industrially, development of the city has brought into being 450 industrial establishments to date, and shipping has mounted at a rate represented by increase of steamship lines from four to 37 in eight years time. However, the city retains, and plans for the future contemplate, consideration of tourist, or travel attractions as a primary asset. It is naturally a health resort, a sportsman's paradise, a playground throughout the year; and numerous civic organizations foster playground-mindedness in community development. Outstanding in this phase of city building is Balboa Park, 1400-acre recreation area in the heart of the city and already internationally famed. There, too, with recreation facilities, has been created a cultural center incorporating many units. Among these, community individuality probably is best expressed by the largest outdoor organ anywhere installed, concerts being rendered daily without regard of seasons and broadcasted by radio. The San Diego zoo, most comprehensive west of the Mississippi, likewise reflects climatic individuality in open-air exhibition of animals, birds and reptiles from all zones, tropical and polar specimens alike finding outdoors comfortable every day in the year.

It Pays to be Prominently Displayed

To let people know WHO you are, WHERE you are and WHAT you have to sell. The City Directory keeps your name before the public 365 days in the year, and it cannot be prominently displayed in any book so CONSTANTLY used as the City Directory.

PRINTERS

Better Printing

THIS kind of printing requires a most complete equipment, expert craftsmen and the knowledge and ability to meet a customer's every requirement, whether it be for a city directory, a clever booklet or a few business cards. This is the service we offer. Let us demonstrate.

DIRECTORIES---City, County or State

Invaluable for Mailing Lists

SAN DIEGO DIRECTORY COMPANY

860 Third St.

THIS PUBLICATION IS THE PRODUCT OF A MEMBER OF

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.
