When People "Want" ! !

THEY LOOK IN THE

CITY DIRECTORY

(CLASSIFIED SECTION)

Is your name under the commodity they seek?

If not, that opportunity of routing valuable business to you is lost. It's about the same as if you kept one of your entrance doors locked.

Hadn't you better investigate your omnipresent city directory and convince yourself of how it can help your business?

DIRECTORY OF HOUSEHOLDERS

Occupants of Office Buildings and Other Business Places

Including a Complete

STREET AND AVENUE GUIDE
1944-45

Copyright, 1945, by San Diego Directory Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to the Alphabetical List of Names.

Numerical Streets follow the Alphabetical Streets.

The symbol ⊙ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol Δ preceding name denotes householders and places of business having telephones.
