THE SAN DIEGO HEAVEN ON EARTH CLUB

SAN DIEGO boasts of an organization that is really unique—the San Diego Heaven on Earth Club. It was founded by a local citizen, Joseph E. Dryer, who was so proud of his city and county that he decided to tell the world about the advantages and attractions of this favored area.

Its origin is quite interesting. In the spring of 1936 Mr. Dryer was walking through the enchanting grounds of the California Pacific International Exposition. As vice-president of San Diego's second world's fair, he admired its superb site in beautiful Balboa Park, a 1400-acre subtropical garden in the heart of the city. No exposition elsewhere had ever been blessed with so lovely a setting.

Joseph E. Dryer

He meditated: "In a few months the exposition will be just a treasured memory—but the park will endure; the equable climate will remain, cool in summer and warm in winter; and the sparkling city, framed by sea and mountains, will never fail to attract the visitor and homeseeker, provided we continue to bring its charms to the world's attention." Passing the California Tower, he strolled across the stately Cabrillo Bridge, spanning a wide canyon. It was the twilight hour. To the west and south he beheld a gorgeous sunset painting Point Loma with lavish colors. "Truly," he mused, "this is Heaven on Earth!"

And that gave Joe Dryer an inspiration. He conceived the idea of forming an association to be known as The San Diego Heaven on Earth Club. Calling together a group of civic leaders, the club was organized May 26, 1936—the birthday anniversary of Balboa Park. Thus was born a club unique, which today has a membership of more than 50,000, living in all parts of the world. Its efforts are devoted primarily to the dissemination of information concerning this area's matchless climate, diversified scenery, and other attractions; to the beautification and cultural development of the city and county; and to the spreading of good will and hospitality.

From its inception the San Diego Heaven on Earth Club has served the community. Following is a brief review of some of its activities:

Elaborately designed Certificates of Honorary Life Membership in the Club are presented to distinguished citizens and visitors, and sent to prominent persons all over the globe. Presidents and kings are numbered among its members.

The Club publishes and makes free distribution of much literature on the city and county. The first outstanding publicity medium was the famous Million Dollar Sunshine Bond, which includes a Climatic Perfection Insurance Policy. Another popular favorite is an illustrated booklet called the Blue Ribbon Record of San Diego County, which features items of leadership in this area.

Each year the Club publishes an attractive Information Calendar. This calendar, issued free to the public, lists many national, state, and local holidays, anniversaries, and important events.

One of the songs published by the Club—"Lovely San Diego, Heaven on Earth"—is often called our community's theme song.

As President of the Club, Mr. Dryer writes weekly columns for the newspapers and periodicals on topics of general civic interest.

Each week, for the past fourteen years, the Club has presented a community radio program over Station KFSD, featuring prominent guest speakers and organizations from every section of the city and county. This broadcast has had a longer continuous run than any other local program.

Each spring, in the interest of civic beautification, the Club makes free public distribution of many thousands of poinsettia cuttings. This brilliant red plant, which grows here so profusely during the holiday season, is looked upon as San Diego's floral emblem and is known as "America's Christmas Flower."

The Club participates in many public events and is planning to take an active part in San Diego's third world's fair—the California World Progress Exposition—which will be held in 1953.

Joe Dryer is recognized as San Diego's No. 1 Booster and is often called "San Diego's Ambassador of Good Will." He has taken a leading part in civic life for the past 25 years, and is past president of the San Diego Chamber of Commerce and of the San Diego Council of the Navy League of the United States.

He takes much pride in the fact that to him belongs the honor of having named and founded the Heaven on Earth Club, of having caused San Diego to become known far and wide as "Heaven on Earth," and of having coined San Diego's slogan of "America's Natural Air-Conditioned Area." Mr. Dryer claims—and backs it up with facts and figures—that San Diego's climate is 98 per cent perfect and only 2 per cent "unusual." And that, he says, makes it a Super-climate.

Anyone interested in the Club and willing to boost for this area is eligible for membership. There are no fees or dues. Requests for membership cards will be accepted from any place in the world. Residents of San Diego and vicinity, however, should call in person at Club headquarters. The address is: The San Diego Heaven on Earth Club, Dryer's Furniture Co. Building, 2400 Kettner Boulevard, San Diego 1, California.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

With an unrivaled organization, having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the San Diego Directory will fulfill its mission as a source of authentic information pertaining to the city.

Population

The population of San Diego is 410,000. Due allowance is made for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is a part of the city, as far as business and social life are concerned, is included in the directory.

Five Major Departments

The several essential departments are arranged in the following order:

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations, on white paper, is included in pages 21 to 1148 for San Diego, and the San Diego Suburban Towns of Chula Vista, Coronado, La Jolla, La Mesa and National City in pages 1797 to 2068.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES, AND STREET AND AVENUE GUIDE for San Diego covers pages 1155 to 1644, on pink paper. In this section a list of Post Office Zone Numbers is followed by the names of the streets and avenues arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character © placed immediately after the name of the householder. The symbol ♠ preceding name denotes householders and places of business having telephones.

THE BUYERS' GUIDE, beginning opposite page 1644, and separately paged from 1 to 140, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of San Diego. These pages will be found particularly interesting and instructive to substantial purchasing

factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The city's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like San Diego, the necessity of having this kind of information immediately available is very great and, frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 1645 to 1796 on yellow paper. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE SAN DIEGO SUBURBAN TOWNS DIRECTORY of Chula Vista, Coronado, La Jolla, La Mesa and National City, arranged in alphabetical order, covers pages 1797 to 2068, on white paper.

Community Publicity

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of San Diego, for business men, everywhere, realize that the city directory represents a community as it really is.

The San Diego Directory Library

Through the courtesy of the publishers of the San Diego City Directory, a Directory Library is maintained at the Chamber of Commerce, 499 West Broadway, for free reference by the general public. This library is part of the system of more than 600, installed and operated in the chief cities of the United States and Canada, under the supervision of the Association of North American Directory Publishers, of which the San Diego Directory Co. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

SAN DIEGO, CALIFORNIA

Prepared by the San Diego Chamber of Commerce

AREA: San Diego County comprises 4,258 square miles, or 2,275,120 acres—approximately the size of the State of Connecticut. The County extends 70 miles along the Pacific Coast northward from the Mexican border, and 80 miles eastward to Imperial Valley.

TOPOGRAPHY: Rising gradually from the ocean beaches on the west, the coastal plain meets the most westerly of the coast foothill ranges at an average distance of ten miles. Inland from this range lie beautiful and fertile valleys, then higher ranges and higher valleys, until the crest of some 6,500 feet is reached in the Cuyamaca Mountains, 40 airline miles from the coast.

The 1940 Federal Census showed that 949,465 acres (35 per cent of total area) in the County are devoted to farming and ranching. The number of farms was 6,844, of which 70 per cent contained less than 50 acres. Only 175,000 acres in the County are irrigable, other areas being dependent on rainfall.

The City of San Diego is in the southwest corner of the United States, located on the shores of a great natural harbor and is bordered on the west by the Pacific Ocean. To the south, but fourteen miles away, is Old Mexico. Toward the east, and plainly visible from the city streets, are mountain ranges that tower more than a mile above sea-level. It is an ideal setting for a great city.

HISTORY: San Diego, "where California began," is the birthplace of civilization on the Pacific Coast. More than 400 years ago—on September 28, 1542—Juan Rodriguez Cabrillo, Portuguese navigator in the service of Spain, entered the landlocked bay and thus discovered what is now the state of California. In 1602 Don Sebastian Vizcaino surveyed the port and bestowed upon it the name "San Diego."

The first white settlement was established in 1769 by a military expedition from Lower California, attended by Franciscan missionaries under the leadership of Father Junipero Serra. On the present site of Presidio Hill he founded the first of the California missions, the beginning of a chain of twenty-one that extended up the coast, a day's journey apart, from San Diego to Sonoma. This mission trail became El Camino Real—or "The King's Highway." In 1774 Mission San Diego de Alcalá—the mother of the missions—was moved about six miles inland to its present location in Mission Valley. Under Mexican government, San Diego was constituted a pueblo in 1834. The first United States flag to fly over Southern California was raised at Old San Diego in 1846, by Lieut. Stephen C. Rowan, U.S.N. San Diego was incorporated as an American city in 1850.

Modern San Diego had its beginning in 1867, when Alonzo E. Horton arrived in San Diego with a vision of building a great city on the shore of San Diego Bay. He wisely chose a location a few miles south of Old San Diego and subdivided an area which is today the central business district of the city.

The city has made remarkable strides in population and importance. The Panama-California Exposition of 1915-16 and the California Pacific International Exposition of 1935-36, both held in beautiful Balboa Park, attracted the attention of the world. And, because of the climate and other natural advantages, San Diego has become one of the nation's greatest all-year playground and vacation resorts, as well as a naval, military, and aviation center. It has also become one of America's leading cities in the manufacture of aircraft and airplane parts.

THE NAVY: No description of San Diego would be adequate which failed to recount the importance of Naval activities.

The United States Navy has recognized the strategic situation of San Diego on the Pacific Coast, its unrivaled climate and its port facilities, by establishment here of the headquarters of the Eleventh Naval District.

The Naval Operating Base of San Diego represents a property investment of more than \$400,000,000 and includes as major activities the Naval Training Center, the Naval Hospital (one of the largest of its type in the world), the Naval Air Station, the Naval Station, the Marine Corps Base, the Naval Supply Depot and the Naval Fuel Depot. Major Pacific Fleet activities also have headquarters in San Diego Bay.

Camp Pendleton, the great Marine Corps training area of 132,000 acres at Oceanside, occupies what originally was one of California's old Mexican land grants, the Santa Margarita y Flores Rancho.

The U. S. Coast Guard maintains an important aviation base at San Diego, for the training of men, the overhaul of aircraft and the operation of air-sea rescue missions.

CLIMATE

The climate and the splendid harbor are unquestionably the city's two greatest assets. Climatologists say that this area's year-round equable climate is unsurpassed. Dean Blake, meteorologist, in charge of the United States Weather Bureau office at San Diego, states that it is questionable whether there is another region of like area where the variety of climates comes so close to filling all demands as in this section of California.

The average rainfall near the ocean during a normal year is only about ten inches, but there are places in the mountains where the fall is well over forty inches, enough to insure adequate water for irrigation and domestic uses. To carry us through the long dry summers, when no rain of consequence occurs, an

extensive system of reservoirs has been established. These scenic mountain lakes also offer excellent recreation facilities.

These long dry summers are a prominent feature of the climate. Except for an occasional thunderstorm over the higher elevations, the period from June to the end of September is virtually without rain. Contrary to expectations, however, our summer temperatures are mild and are rarely high; and the hot, humid weather of the central and eastern states is unknown. Thunder and lightning occur so seldom in the coastal belt that they are considered a novelty.

In shore, it's a comfortable climate—healthful, balmy, and inspiring. From a strictly climatological standpoint, however, the outstanding feature is its equability. The official bulletins of the Weather Bureau describe this region as having the most equable climate in the United States.

INDUSTRY

San Diego offers exceptional advantages for a variety of industries. These include an ample and technical labor supply; excellent transportation facilities by rail, water or air; low cost of factory sites and buildings; comparatively low cost of power, light, fuel, water and taxes; proximity to rapidly growing markets of the Pacific Coast, and a climate in which labor reaches its maximum efficiency.

San Diego has approximately 486 manufacturing plants, employing 28,000 persons.

The products, highly diversified, include airplanes and parts, light metal parts, shipbuilding, printing, canned fish, fish meal, fertilizers, citrus by-products, citrus soap, furniture, food kelp products; food products: salt, olives, olive oil, macaroni, pimientos, jams, confectionery; soft goods: uniforms, caps and aprons; hard goods: onyx, marble, granite, cement pipe, brick and tile; and numerous other items.

San Diego possesses approximately 300 wholesale distribution firms employing 3,400 persons, and has always been regarded as a jobbing point.

NEWSPAPERS

The city of San Diego is served by three dailies and one Sunday newspaper, and by two daily legal papers, and several weekly newspapers.

The daily newspapers are:

San Diego Journal (afternoons), 1405 Fifth Avenue

San Diego Union (mornings and Sundays), Land-Title Building, 235 Broadway

Tribune-Sun (afternoons), Land-Title Building, 235 Broadway

The cities of Escondido and Oceanside have daily newspapers and other newspapers, usually weekly, are published in Carlsbad, Chula Vista, Coronado, El Cajon, Encinitas, Fallbrook, La Mesa, Lemon Grove, National City, Ramona, San Ysidro, Vista, Lakeside and Solana Beach.

WATER SUPPLY

Ample water for the San Diego metropolitan area is derived from a group of reservoirs built by the city in the mountainous area of the County, plus a supply of 60 million gallons daily brought by aqueduct from the Colorado River. An additional 40 million gallons daily of Colorado River water is available to this City when needed. Average daily consumption of water in the city is 100 gallons per capita.
