A reference library of late out-of-town city directories

THE PUBLISHERS of this Directory maintain for the use of their subscribers and the general public a complete library of late out-of-town City Directories. We invite you to consult this library when in need of names and addresses of individuals and firms in other cities. It is especially designed for the reference use of business men who subscribe to the local City Directory, when seeking markets and sources of supply outside this city. There is no charge except for extended continuous use. The library, with attendant in charge, is located at:

POLK'S SAN DIEGO

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1953-54

Including La Jolla

Copyright, 1954, by R. L. Polk & Co. of California

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house-owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Due to the many changes in telephone numbers and exchanges taking place in your City, the publishers of your San Diego City Directory feel that you would be inconvenienced by having erroneous numbers published in your City Directory, therefore, telephone numbers are not included in the Householders' Guide Department in this edition of your San Diego City Directory.

Subsequent editions of the San Diego City Directory will carry this feature the same as in the past.
