## INTRODUCTION AND GENERAL INDEX

R. L. POLK & CO., publishers of more than 850 city, county, state and national Directories, present to subscribers and the general public, this, the 1958 edition of the San Diego City Directory, which also includes La Jolla.

Confidence in the continued growth of San Diego's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting San Diego to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the San Diego Directory will fulfill its mission as a source of authentic information pertaining to the city and vicinity.

#### Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the community, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the community. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a large commercial center and port city like San Diego, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns of San Diego and La Jolla is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of San Diego and La Jolla, and the name, official personnel, nature and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, for San Diego and La Jolla, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

#### Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a port, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of San Diego and La Jolla.

#### The San Diego Directory Library

Through the courtesy of the publishers of the San Diego City Directory, a Directory Library is maintained at the San Diego Public Library, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

AREA: San Diego County comprises 4,258 square miles, or 2,725,120 acres—approximately the size of the State of Connecticut. The county extends 70 miles along the Pacific Coast northward from the Mexican border, and 80 miles eastward to Imperial Valley.

TOPOGRAPHY: Rising gradually from the ocean beaches on the west, the coastal plain meets the most westerly of the coast foothill ranges at an average distance of ten miles. Inland from this range lie beautiful and fertile valleys, then higher ranges and higher valleys, until the crest of some 6,500 feet is reached in the Cuyamaca Mountains, 40 air-line miles from the coast.

The 1954 Federal Census showed that 1,012,581 acres (over 35% of total area) in the county are devoted to farming and ranching. The number of farms was 6,478, of which over 80% contained under 50 acres each.

San Diego is in the southwest corner of the U. S., located on the shores of a great natural harbor, and is bordered on the west by the Pacific Ocean. To the south, but sixteen miles away, is Old Mexico. Toward the east, and plainly visible from the city streets, are mountain ranges that tower more than a mile above sea level. It is an ideal setting for a great city.

HISTORY: San Diego, "where California began," is the birthplace of civilization on the American Pacific Coast. More than 400 years ago—on Sept. 28, 1542—Juan Rodriguez Cabrillo, Portuguese navigator in the service of Spain, entered the land-locked bay and thus discovered what is now the State of California. In 1602, Don Sebastian Vizcaino surveyed the port and bestowed upon it the name "San Diego."

The first white settlement was established in 1769 by a military expedition from Lower California, attended by Franciscan missionaries under the leadership of Father Junipero Serra. On the present site of Presidio Hill he founded the first of the California missions, the beginning of a chain of 21 that extended up the coast, a day's journey apart, from San Diego to Sonoma. This mission trail became El Camino Real—or "The King's Highway." In 1774, Mission San Diego de Alcalá—the mother of the missions—was moved about six miles inland to its present location in Mission Valley. Under Mexican government, San Diego was constituted a pueblo in 1834. The first U. S. flag to fly over southern California was raised at Old San Diego in 1846, by Lieut. Stephen C. Rowan, U. S. N. San Diego was incorporated as an American city in 1850.

Modern San Diego had its beginning in 1867, when Alonzo E. Horton arrived here with a vision of building a great city on the shore of San Diego Bay. He wisely chose a location a few miles south of Old San Diego and subdivided an area which today is the central business district of the city.

The city has made remarkable strides in population and importance. The Panama-California Exposition of 1915-16 and the California Pacific International Exposition of 1935-36, both

held in beautiful Balboa Park, attracted the attention of the world. Because of the climate and other natural advantages, San Diego has become one of the nation's greatest all-year playground and vacation resorts, as well as a naval, military and aviation center. It also has become one of America's leading cities in the manufacture of aircraft and airplane parts.

THE NAVY: No description of San Diego would be adequate which failed to recount the importance of naval activities.

The U. S. Navy has recognized the strategic situation of San Diego on the Pacific Coast, its unrivaled climate and its port facilities, by establishment here of the headquarters of the 11th Naval District.

Climate

The climate and the splendid harbor are unquestionably the city's two greatest assets. Climatologists say that this area's year-around equable climate is unsurpassed. A. W. Anderson, meteorologist in charge of the U. S. Weather Bureau office at San Diego, states that it is questionable whether there is another region of like area where the variety of climate comes so close to filling all demands as in this section of California.

The average rainfall near the ocean during a normal year is only a little over ten inches, but there are places in the mountains where the fall is well over 40 inches, enough to insure adequate water for irrigation and domestic uses. To carry through the long dry summers, when no rain of consequence occurs, an extensive system of reservoirs has been established. These scenic mountain lakes also offer excellent recreation facilities.

The long dry summers are a prominent feature of the climate. Except for an occasional thunderstorm over the higher

STATELY CALIFORNIA TOWER, with its rich, ornate architecture, is a familiar landmark in San Diego's famed Balboa Park. The park area, comprising 1,400 acres, is filled with lush, colorful gardens, Spanish Renaissance buildings that have served two international expositions, the world-renowned San Diego Zoo, and many other recreational and cultural activities.

known. Thunder and lightning occur so seldom in the coastal belt that they are considered a novelty.

In short, it's a comfortable climate—healthful, balmy and inspiring. From a strictly climatological standpoint, however, the outstanding feature is its equability. The official bulletins of the Weather Bureau describe this region as having the most equable climate in the U. S.

#### Industry

San Diego offers exceptional advantages for a variety of industries. These include an ample and technical labor supply; excellent transportation facilities by rail, truck, water and air; low-cost factory sites and buildings; comparatively low cost of power, light, fuel, water and taxes; proximity to rapidly-growing markets of the Pacific Coast, and a climate in which labor reaches its maximum efficiency.

San Diego has 725 manufacturing plants.

The products, highly diversified, include airplanes and parts, electronics, fiberglass and plastic products, light metal parts, shipbuilding, printing, canned fish, fish meal, fertilizers, citrus by-products, citrus soap, furniture, food kelp products, salt, olives, olive oil, macaroni, pimientos, jams, confectionery, uniforms, caps and aprons, onyx, marble, granite, cement pipe, brick and tile, and numerous other items.

San Diego has 951 wholesale distribution firms, and is regarded as a jobbing point.

#### Newspapers

The city is served by two daily and one Sunday newspaper, and by one daily legal paper, and several weekly newspapers. The daily newspapers are: San Diego Union (mornings and Sundays) and Evening Tribune (afternoons).

The cities of Escondido and Oceanside have daily newspapers, and other newspapers, generally weekly or semi-weekly,

are published in Alpine, Carlsbad, Chula Vista, Coronado, El Cajon, Encinitas, Fallbrook, La Mesa, Lemon Grove, National City, Poway, Ramona, Rancho Santa Fe, Vista, Imperial Beach, San Marcos, San Ysidro, and Solana Beach.

#### Water Supply

Ample water for the San Diego metropolitan area is derived from a group of reservoirs built by the city in the mountainous area of the county, plus a supply of 128,000,000 gallons daily brought by aqueduct from the Colorado River. Average daily consumption of water in the city is 125 gallons per capita.

*Circulation*

**N**ames and addresses of 39,977,700 passenger car owners and 8,427,900 truck owners . . . families and concerns who buy more than three-fourths of the nation's consumer goods . . . arranged by street and number . . . by city, county and state . . . by make of vehicle and year model . . . are available to the nation's largest advertisers. Yearly, R. L. Polk & Co. compiles for the automotive industry the official registration list of car and truck owners — the largest, most accurate mailing list in the world.

Through this great "circulation list," and through Polk's nation-wide direct mail advertising distribution facilities, the automotive industry and hundreds of other major concerns reach selected markets for their products . . . send advertising messages pin-pointed to the very prospect or customer they wish to reach . . . each advertising message imprinted with the local dealer's firm name and address, and sent to his own selected sales territory.

This world's greatest "circulation list" is a major sales tool used by industry to help move the goods and services that keep our economy rolling, helping to sell not only automobiles, but oranges, magazine subscriptions, vacation tours, and household appliances.

Do your employers furnish you with  
the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

# LARGE-BANK RESOURCES and LOCAL-BANK SERVICES

## ARE COMBINED AT SECURITY BANK!

Over 3 Billion Dollars in Resources . . . over 200 branches covering every strategic financial center of central and southern California . . . the prestige that goes with having your account in one of America's largest banking systems . . . these are all big-bank advantages.

Neighborliness, complete familiarity with local conditions, gained through years of acquaintance with every aspect of the San Diego scene . . . freedom from red tape and a ready understanding of your financial needs . . . these are worthwhile local-bank advantages.

You get both, in full measure, when you bank at Security.

THE "PERFECT" COMPANIONS"  
CONCRETE HAZARD BLOC AND  
CLAY HAZARD BRIC

Greatest advance in brick making in 3000 years!

NEW HAZARD AUTOMATIC PRECISION KILN

Brick making is an ancient art. Methods have changed little through the years. Now modern mechanical genius has developed a far better way. Hazard Bric, like Hazard Bloc, is precision-made completely by automatic machinery. The amazing new Hazard brick kiln receives raw clay at one end and delivers finished, baked brick out the other—in one continuous operation. Bricks made by old fashioned methods vary in size and quality. Modern Hazard Bric is always uniform, with exact dimensions, clean edges, delicately scratched texture and beautiful, dark red color. For better building, insist on Hazard Bric, the precision brick.

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

One visit to Walker Scott and you'll know why folks call it "The Friendly Store." You'll feel right at home, because our employees are the kind of people who are NATURALLY friendly; because no effort is spared to make your visit a pleasant one. Here are just a few of the factors that make Walker Scott San Diego's finest department store:

- Cynthia Curtis, Walker Scott's personal shopper, will do your shopping for you if you can't come in yourself. Call BElmont 3-8282.
- Walker Scott has nine selling floors, and 74 departments, containing everything imaginable for men, women, children and for the home.
- Walker Scott gives S&H Green Stamps . . . and maintains a Green Stamp Redemption Station, on the Third Floor.

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

## NEWSPAPERS

**WORLD EVENTS HAVE  
NEVER BEEN MORE  
SIGNIFICANT . . .**

*Keep informed with  
San Diego's two great newspapers*

World shaping events are taking place almost daily . . . events which effect not only our nation as a whole but may effect us even as individuals. Science and technological progress alone have brought new demands upon our newspapers for complete coverage of these developments. People need to know what is going on in the world as well as at home.

The San Diego Union and Evening Tribune are constantly expanding their facilities and services to bring you up to the minute, easy to read and assimilate information of vital interest to every member of the family.

Complete local and worldwide news coverage plus carefully selected features enables the San Diego Union and Evening Tribune to produce newspapers that bring the world to your doorstep . . . newspapers that please the entire family. Recognized leadership for over 81 years make these papers important to your daily reading habits.

**CAUTION . . . . .**

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

## INSURED SAFETY

Each account is insured up to \$10,000 by the Federal Savings and Loan Insurance Corporation, an agency of the U. S. Government. Reserves are maintained far in excess of the amount required by law.

## LIBERAL EARNINGS

An enviable dividend record has been established by Home Federal since its founding in 1934, with earnings continually paid at the highest rate consistent with safety.

## EASY ACCESSIBILITY

Your funds are readily available to you. Withdrawal requests are honored promptly, and no service fee is charged when you withdraw any portion of the investment.

## COLLECTION SERVICE

If you are a holder of notes, trust deeds, or chattel mortgages—or, if you rent property—you will find Home Federal's collection service of outstanding advantage to you.

Do your employers  
furnish you with the  
latest edition of the  
City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

## Please! Do Not Lend Your CITY DIRECTORY

**IT COSTS YOU MONEY—Every Time it Is Loaned**

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

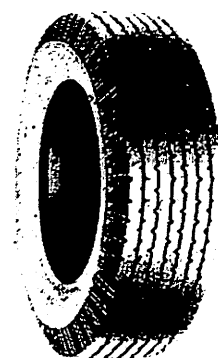

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

## A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising ~aims to inform the con-  
sumer and help him to buy more intelligently.
2. Good Advertising ~tells the truth, avoiding  
misstatement of facts as well as possible deception  
through implication or omission. It makes no claims  
which cannot be met in full and without further  
qualification. It uses only testimonials of competent  
witnesses.
3. Good Advertising ~ conforms to the gen-  
erally accepted standards of good taste. It seeks public  
acceptance on the basis of the merits of the product or  
service advertised rather than by the disparagement of  
competing goods. It tries to avoid practices that are  
offensive or annoying.
4. Good Advertising ~ recognizes both its eco-  
nomic responsibility to help reduce distribution costs  
and its social responsibility in serving the public  
interest.

principles set forth in this statement)
