Traffic Advisory Clairemont Area

San Diego – Please avoid the area of eastbound Balboa Avenue between Clairemont Drive and Mt. Culebra until further notice.

At about noon a City of San Diego contractor was filling a 16” PVC water main in order to perform a pressure test. The water main failed and water was released. The water main has to be excavated in order to locate the failure and perform repairs. This work will require the closure of the number one lane of eastbound Balboa Avenue between Clairemont Drive and Mt. Culebra for the duration of the day today, Tuesday, April 14, 2015 and will extend into the evening.

Once the repair to the pipe is made, repairs to the street have to be completed before the lane can be re-opened. An update to this traffic advisory will be provided once additional information is available.

An alternate east/west route is Clairemont Mesa Boulevard which is located to the north of Balboa Avenue.

If you must travel through the area, please use caution in the construction zone and allow extra time to arrive at your destination.
