Traffic Advisory

Washington and Goldfinch Streets Mission Hills/Uptown areas

San Diego – Beginning Friday, February 12, 2016 at about 10 p.m., the intersection of Washington and Goldfinch Streets will be closed through the weekend for construction. The work is anticipated to be complete by Sunday, February 14. Pedestrian access will be maintained during construction.

This closure is part of the University Avenue Pipeline Replacement project, a Capital Improvements Program (CIP) project that will replace about four miles of cast iron water mains within the Mission Hills, University Heights, Hillcrest and North Park communities.

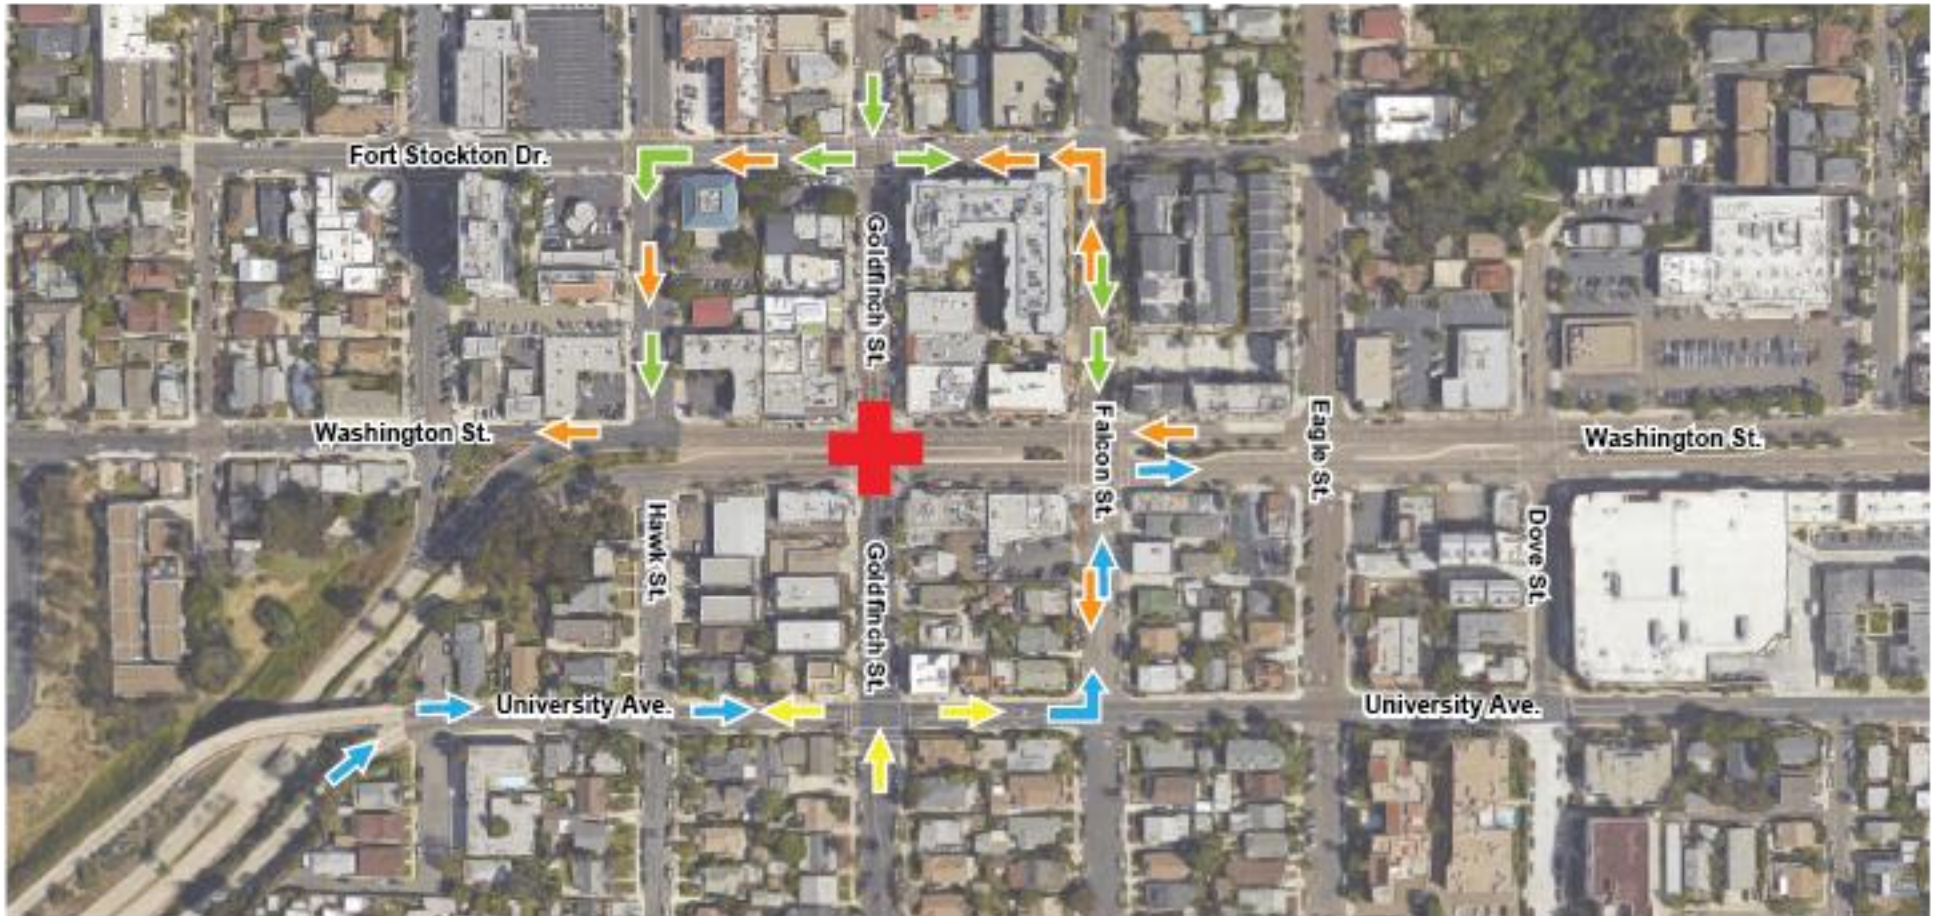

Alternate routes include Fort Stockton Drive to the north; Hawk Street to the west; Falcon Street to the east and University Avenue to the south. *(See map below for additional detour information.)*

Valet service on Goldfinch Street (east and west sides) will continue as usual. Cones and signage will be posted to allow drivers to make a U-turn on Goldfinch in order to access the valet and safely exit the area.

If you must travel through the area, please use caution in the construction zone and allow extra time to arrive at your destination.

###

University Avenue Pipeline Replacement Project

Traffic impacts for Friday, February 12, 2016 beginning at 10 p.m. through Sunday, February 14, 2016. (Continuous day and night closure/work)
