

CITY OF SAN DIEGO - 1222 FIRST AVE., M.S. 401, SAN DIEGO, CA 92101

PUBLIC NOTICE

Date: Feb. 15, 2019

Subject: Fire Alarm and Fire Sprinkler Submittals for Tenant Improvement (T.I.) Projects Must be Submitted at the Time of Building Permit Effective April 2, 2019

Starting April 2, 2019, tenant improvement (T.I.) building projects will no longer be allowed to defer fire alarm and fire sprinkler plans for existing systems. Fire alarm and sprinkler plans (or affidavits) must be submitted with the building plan sets. Projects without fire alarm and fire sprinkler plans at the time of initial set up may proceed with the review, however the building permit (and any associated permits) will not be issued until plan review for fire sprinkler and fire alarm systems has been completed.

Starting Jan. 1, 2020, deferred submittal of fire alarm and fire sprinkler systems will not be allowed for any project.
